

I reached out to each of you between 2/10/24 and 9/2/24.

Below is the last revision of the email sent.

AlliancesForHumanity.com is now AFH137.com.

I'm disappointed with how most of you handled what was sent.

It appears arrogance and cowardice won the day!

I assume certain political and military individuals have seen these mailings of mine.

YOU should be nurturing and defending our peoples RIGHT to grow and expand, to evolve!!!

Our humanity MUST be looked upon as an entity unto itself which needs a beneficial environment.

You're not providing one. Your actions cause confusion and mistrust. Your priorities distort reality.

Most of the political systems will work IF properly administered, which means with Wisdom.

Each nation has a part to play in our greater structure. The structure will collapse without cooperation.

Your body is made up of a wide diversity of unique individuals, the different organs and cellular lives.

All fulfilling their responsibilities within a greater entity, YOU. You animate, give life, to their world.

The same applies whether discussing a nation, planet, Solar System or that which is greater still.

I resend the email in the hope that the divinity which resides in each of you will be touched.

That the needs of our people, and planet, will be aggressively dealt with.

1/23/25--An odddity has been noticed in the data. You may be able to help resolve it.

Our Solar System orbits the star Sirius. Sirius orbits Alcyone in the Pleiades.

There are 7 types of substance. Each has 7 sub-states (solid, liquid, gas and the 4 ethers).

If this caught your attention then please read on.

I go out to the CNN website multiple times a day.

I look for articles dealing with Astronomy, ancient Anthropology, Paleontology and Geomorphology.

I'll then contact those mentioned in the article.

I also look for research papers and groups which those mentioned may be a part of.

I'll then collect the names and find the addresses of those individuals.

This is how I came across each of you.

Our global society is falling apart.

I don't see the necessary attitudes changing which will correct this.

ALL OF US have a part to play in this.

I earned a B.S. in Physics back in 2014.

I mention this only to show that in some ways I'm one of you.

The scientific approach is very much a part my mentality.

What separates us are certain intellectual boundaries which I've opposed.

I've had no problem examining what many of you would consider forbidden territory.

Theosophy, and the Occult Sciences, to be more specific.

ANY definitions you may find on the web will be wholly inadequate folks!!!

See "For Our Scientists" and "the HIERARCHY" below for knowledgeable presentations.

I've pushed through the nonsense, the veil, and found a structure with its core tenets.

I'll be sharing some of this with you.

What little is given will open a significant door.

 This may interest you.

Our Solar System orbits the star Sirius along with 6 other systems.

Those responsible for global evolution, the HIERARCHY, important.

<https://alliancesforhumanity.com/hierarchy/>

I don't like bringing politics into this but this is important, on a number of levels.

The world also needs a better understanding of the Jewish phenomenon.

<https://alliancesforhumanity.com/searches/jews.pdf>

There are 3 approaches which can be taken towards what is above:

- 1). Ignore it, it's beneath your status to consider.
- 2). Following these leads would cause too many ripples which you don't want to deal with.
- 3). Give the material a chance to prove itself.

In the 1st case you have arrogance, in the 2nd cowardice and in the 3rd wisdom.

Your research is interesting, and needed, but not nearly as important as verifying the Sirian connection. Especially if you can determine the 6 other systems!

The implications, along a number of lines, would be significant.

Is it this which is causing problems, rocking the boat? If so then you need to set better priorities!

The following individuals were initially contacted on the dates shown

The Sirian issue, among other things, was raised at that time.

Astrologically a lot of attention is given to the Infrared Spectrum, 1,000-700nm.

The Visible Spectrum is approximately 700-400nm.

This spectrum allows the seeing of DENSE physical objects composed of solids, liquids and many gases.

Conventional eyesight covers this spectrum, these forms, types of matter.

I highly recommend more attention be given to the Ultraviolet Spectrum, 400-10nm.

Frequent reference is made to "the Ethers" in certain literature, the 4 sub-gaseous states.

There are many who can naturally see ETHERIC physical forms.

Forms that may, or may not, have a DENSE physical counterpart.

Technology needs to be developed which can view this spectrum.

info@AlliancesForHumanity.com began to be blocked by *mpia.de* on 2/24/24, labeling it as spam.

On 2/27/24 it officially became blacklisted by postmaster@mailsupport.dfn.de.

mpia-hd.mpg.de and *mpimf-heidelberg.mpg.de* have blacklisted it as well.

mpia.de overestimates its understanding, it's being arrogant, OR it's afraid of the possibilities should

what I'm presenting be honestly and objectively examined. It's forcing its limitations upon its people.

Prove the Sirian connection folks!!! Find the 6 other systems. This one act will accomplish MUCH!

Or *mpia.de*, disprove it, prove me wrong, prove Occultism to be wrong.

Provide confirmation from others and I'll shut up, go silent, disappear.

Since 2/24/24 *mpia.de* has restricted what 154 of its people have access to!

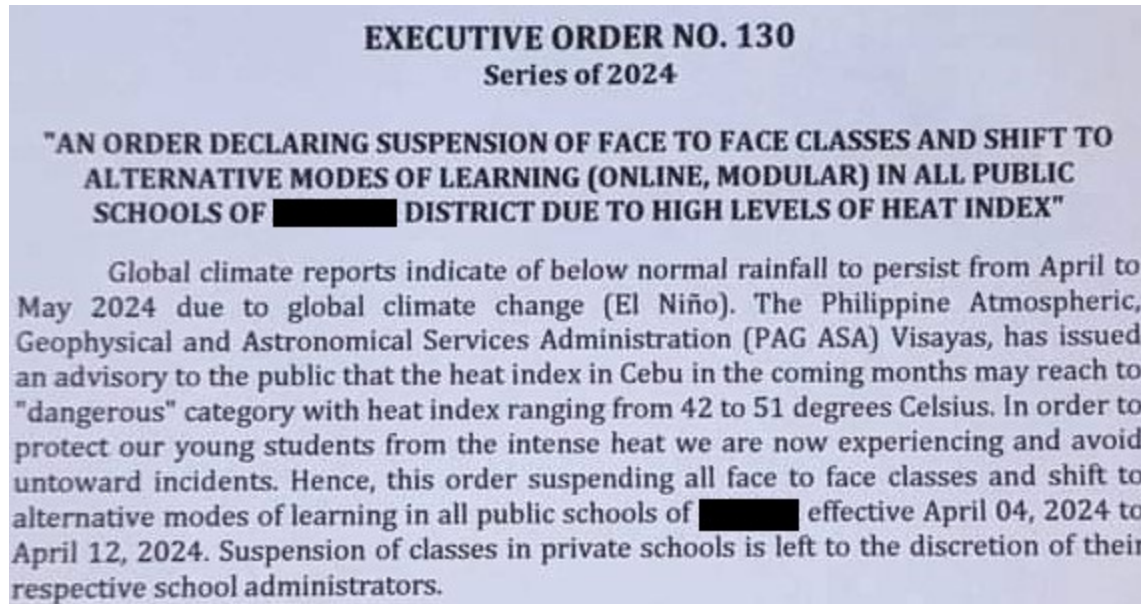

I will continue to include its personnel in these mailings.
 A full listing of those blocked may be found in [contactedn.pdf](#) below.
mpia.de is doing an injustice to its people AND the pursuit of TRUTH.

<https://alliancesforhumanity.com/stats/>

 Began to revisit my Website stats on 3/15/24 beginning with the year 2015.
 I've come to a few disappointing realizations.
 A few countries have shown significant interest in AlliancesForHumanity.com (AFH).
 Relative to both the Spiritual side of things and the more technological aspects.
 The frequency of pages viewed and files downloaded confirms this.
 What's disappointing is that this research HAS NOT reached the people.
 I don't see healing clinics being built based on the Rife technology.
 I don't see power units/stations being constructed based on the work done by Moray.
 I'm confident both of these techs have been mastered by numerous countries
 yet the people, and the planet, are not benefiting from them.
 I've got a few things to say on this at the bottom of the
<https://alliancesforhumanity.com/stats/> webpage.
 I also list the top countries benefiting from AFH and the most downloaded files.

 On a different issue.
 I've reached out to literally 10s of 1000s of scientists around the globe.
 You're the ones who will develop the technology.
 The responses I've received can be counted on one hand!
 This has caused few problems. I have no interest in responding to emails all day.
 With a few exceptions everything you need can be found on the website.
BUT, I find such few responses odd considering how many people I've contacted.
 I receive automatic returns but virtually no replies.
 Are you all this timid, not willing to consider other possibilities,
 not willing to relinquish your intellectual throne,
 don't know how to incorporate Occultism, the Occult Sciences,
 into your world OR is someone interfering with your responses,
 with my ability to receive them.
 Does Occultism pose a threat to any group, institution, agency or corporation?

 Someone close to me received this on 4/3/24.

She's in her last semester of becoming an elementary school teacher.

Is now getting some practical experience, face to face, with the kids.

WHAT ARE YOU FOLKS DOING TO CORRECT THESE CLIMATE ISSUES!!!

Priorities must be set. Your projects can wait!

Moray can provide an inexpensive, CLEAN, power source.

See <https://alliancesforhumanity.com/discoveries/>

Whether it be for a car, a house or an industrial complex.

You are some of the strongest minds within our humanity, **DO SOMETHING!!!**

With your resources you should be able to perfect this tech quickly

then get back to your pet projects. If everyone I've reached out to,

see <https://alliancesforhumanity.com/contactedn.pdf>

joined forces wonders could be achieved in a short time!!!

Not an impossibility if Humanity means something to you!

This IS NOT difficult tech. Well, that opened up a few thoughts.

You won't go near promising technologies unless they're complicated therefore expensive???

How much has been spent on the Large Hadron Collider?

How has it helped humanity in ANY meaningful, PRACTICAL, way?

The Rife, Moray and Keely tech could have been PERFECTED using those funds.

Microbial infections would be abolished, we'd have an abundance of clean energy AND be Masters of matter.

You're a disappointing lot of people who CAN NOT set proper priorities and YOUR people suffer because of this!!!

A collective backbone is needed, moral solidarity, financial discretion, SHOW YOU CARE.

42-51C (108-124F) will kill large numbers of people.

**If you remain on your current path, that of inaction and self interest,
 you will carry some responsibility for these deaths.**

6/20/24--It has begun:

"Hundreds of Hajj pilgrims die as Mecca temperatures hit 120 Fahrenheit"

<https://edition.cnn.com/2024/06/21/middleeast/hajj-deaths-mecca-extreme-heat-intl-latam/index.html>

"Searing heat is back across Southeast Asia and it's not going away anytime soon"

<https://edition.cnn.com/2024/04/10/asia/southeast-asia-extreme-heat-climate-intl-hnk/index.html>

4/11/24--Executive Order No. 130 update:

All K-12 live classes have now been suspended indefinitely. **Come-on people!!!**

One more issue I'd like to raise, the UFO situation.

"Biden calls US ally Japan 'xenophobic' along with India, Russia and China"

<https://www.cnn.com/2024/05/02/politics/biden-japan-xenophobic-us-ally/index.html>

This xenophobia extends to a large percentage of our humanity when it comes to these visitors.

I believe there are 3 fundamental reasons why they're here.

1). Simply to prove that we're not alone and to open a dialog IF possible.

If the UN were to send an internationally televised WELCOMING message, and make this a global event, I'm pretty sure they'd respond favorably.

2). Demonstrate a few of their technological abilities.

3). Should we prove that we're incapable of handling our global responsibilities, and our Hierarchy gives the word, they will contribute to neutralizing our ability to further harm ourselves or the planet. This would be a sad day for us, failure on a global scale.

I highly recommend the film *The Phenomenon*, 1:40, 2020. [Online](#), [Download](#).

6/8/24--Boeing and SpaceX have been getting a lot of publicity over their two recent launches.

I shake my head every time I see one of these go off.

The technology is useless outside the Solar System, barely useful within. **It's far too slow.**

It takes months, years, just to reach OUR planets.

Manned missions beyond the moon are not practical.

Just to the moon presents numerous challenges.

Interstellar travel is out of the question yet billions are spent on these toys!

Frankly, I'm embarrassed that we're still using such tech.

We should be WELL beyond it by now, publicly!!!

IF, I repeat IF, we were a responsible peoples I'm sure these Visitors would be willing to share a few ideas, concepts, with us which would be of significant help in numerous ways, IF!
