All you've managed to do is to show your intellectual limitations and rigidity.

You're an arrogant KID who thinks he knows more than he does.

You wear a cloak of niceties while insulting what you know nothing about and I suspect is incapable of understanding!

You're probably trying to impress a few people as well.

As for the rest of you I suggest you be very careful in giving any attention to individuals such as this one.

He, they, will hold you, us, back and attempt to impose their limited perspective.

My apologies for this intrusion!

My lad, it appears you may be suffering from a schizophrenic episode... I write this with great compassion and not mockery believe me. People have blocked you because you are delusional and they consider it not worth their time to answer (or even read) you. I suggest—while perfectly aware you will ignore it—you consult psychiatric help.

Best of luck,

What a rude person you are. You will never get any serious person to listen to you that way.

Please take me off your spam list.

This is the caliber of people I've been exposed to. Can't say that I'm impressed!

I know you folks are deeper than this. Website activity indicates that there's a definite interest in what's being presented. I sincerely hope you're discussing these matters amongst yourselves.

You MUST detach the word Spiritual from Religion.

Religion is intended for humans at a certain stage of evolution. They're not in a position to make use of the Blavatsky or Bailey literature, the Occult Sciences. They don't have the equipment, the mental development, YET!!! They will, some day. OR, they have strong minds but are radicals, fully immersed, absorbed into, Religious doctrine. They see nothing else. They have yet to hit the wall, its limitations. They'll eventually be forced to look beyond Religion if TRUTH is what they seek. There is truth within all the Religions but they each present selective, minimized, Theological portions of Occultism. I DO NOT restrict the word Theology to just Christian beliefs!

I do not like the word God. It implies limitless. ALL Divine Creators have limits!!! Whether it be a Planet, Solar System, Galaxy or beyond. There are boundaries associated with Their domains. Yes, you eventually begin to approach infinity. This topic would make for an interesting discussion someday. Restrict the use of God below to our Solar Creator, our Solar Logos or the Sirian Logos!

**theology** /thē-ōl'ə-jē/ 

**noun**

- The study of the nature of God and religious truth; rational inquiry into religious questions.
- A system or school of opinions concerning God and religious questions.  
*"Protestant theology; Jewish theology."*
- A course of specialized religious study usually at a college or seminary.
- The science of God or of religion; the science which treats of the existence, character, and attributes of God, his laws and government, the doctrines we are to believe, and the duties we are to practice; divinity; (as more commonly understood) "the knowledge derivable from the Scriptures, the systematic exhibition of revealed truth" the science of Christian faith and life.

Similar: **divinity**

- See Ascetic, Natural.
- That phase of theology which is concerned with moral character and conduct.
- Theology which is to be learned only from revelation.
- Theology as taught by the scholastics, or as prosecuted after their principles and methods.

Occultism presents the fundamental tenets of the evolutionary process, the ABCs, within the limits of what the more advanced members of our humanity are capable of making use of and what it is currently wise to release, which is significant.

Levelheaded, rational, sane Theologians and Scientists need to pool their resources using the Occult Sciences as a blueprint upon which to build a superstructure. You're both running up against the same fundamental problem, the WALL or the Veil.
